

Upper View looking east-Lower View looking south-The two Views are continuous.The East Kaibab Monocline is immediately in front of the observer carrying the same geological horizon on which he stands down to the platform 2400 to 3000 feet below.

The Marble Cañon is seen in the middle distance and the Echo Cliffs in the background. The Triassic Cliffs terminating the Paria Plateau are seen in the background on the extreme left of the upper View.

VIEWS OF THE MARBLE CAÑON PLATFORM FROM THE EASTERN BRINK OF THE KAIBAB
